Regional Technical Assistance Workshops

The Michigan Department of Education, Office of Career and Technical Education (OCTE), is conducting four workshops around the state in the month of November for teachers in CTE who do not have a state professional organization.

The purpose of this professional development is to assist participants to understand the standards process which includes the **gap analysis**, **segmenting**, and **reporting segments in CTEIS**. It is recommended that each teacher bring their Gap Analysis file and a laptop computer that is wireless.
